Eliminates the need and the cost of using fiber optic cabling

Description

A reliable, affordable and high-speed solution. A secure scalable broadband wireless system deployment can eliminate the need and the cost of using optical fiber, as well as the tedious wiring needed to connect major infrastructures.

Benefits

- Increased speed and coverage.
- Lower cost and greater flexibility.
- Fast Implementation.

Buying guide

- AIR-BR600ND-1G1A: AIRNET 300Mbps Dual Radio 1@2.4GHz & 1@5GHz MIMO
- W5G-20SP90-DP: 4.9 to 5.9GHz 2x2 MIMO 20dBi 90° Sector Panel Antenna
- W5G-19SP120-DP: 4.9 to 5.9GHz 2x2 MIMO 19dBi 120° Sector Panel Antenna
- AIR-CPE610AN: AIRNET 300 Mbps 5GHz 802.11a/n CPE
- AIR-CPE600ANH: AIRNET 300Mbps 4.9 to 5.8GHz 802.11a/n MIMO 2x2 CPE
